

Data-Driven Sales Strategy & Performance Analytics

by: **Az-Zukhrufu Fi Silmi Suwondo**

Rakamin Academy Virtual Internship
Program in Partnership with **Bank Muamalat**

Project Overview

Background

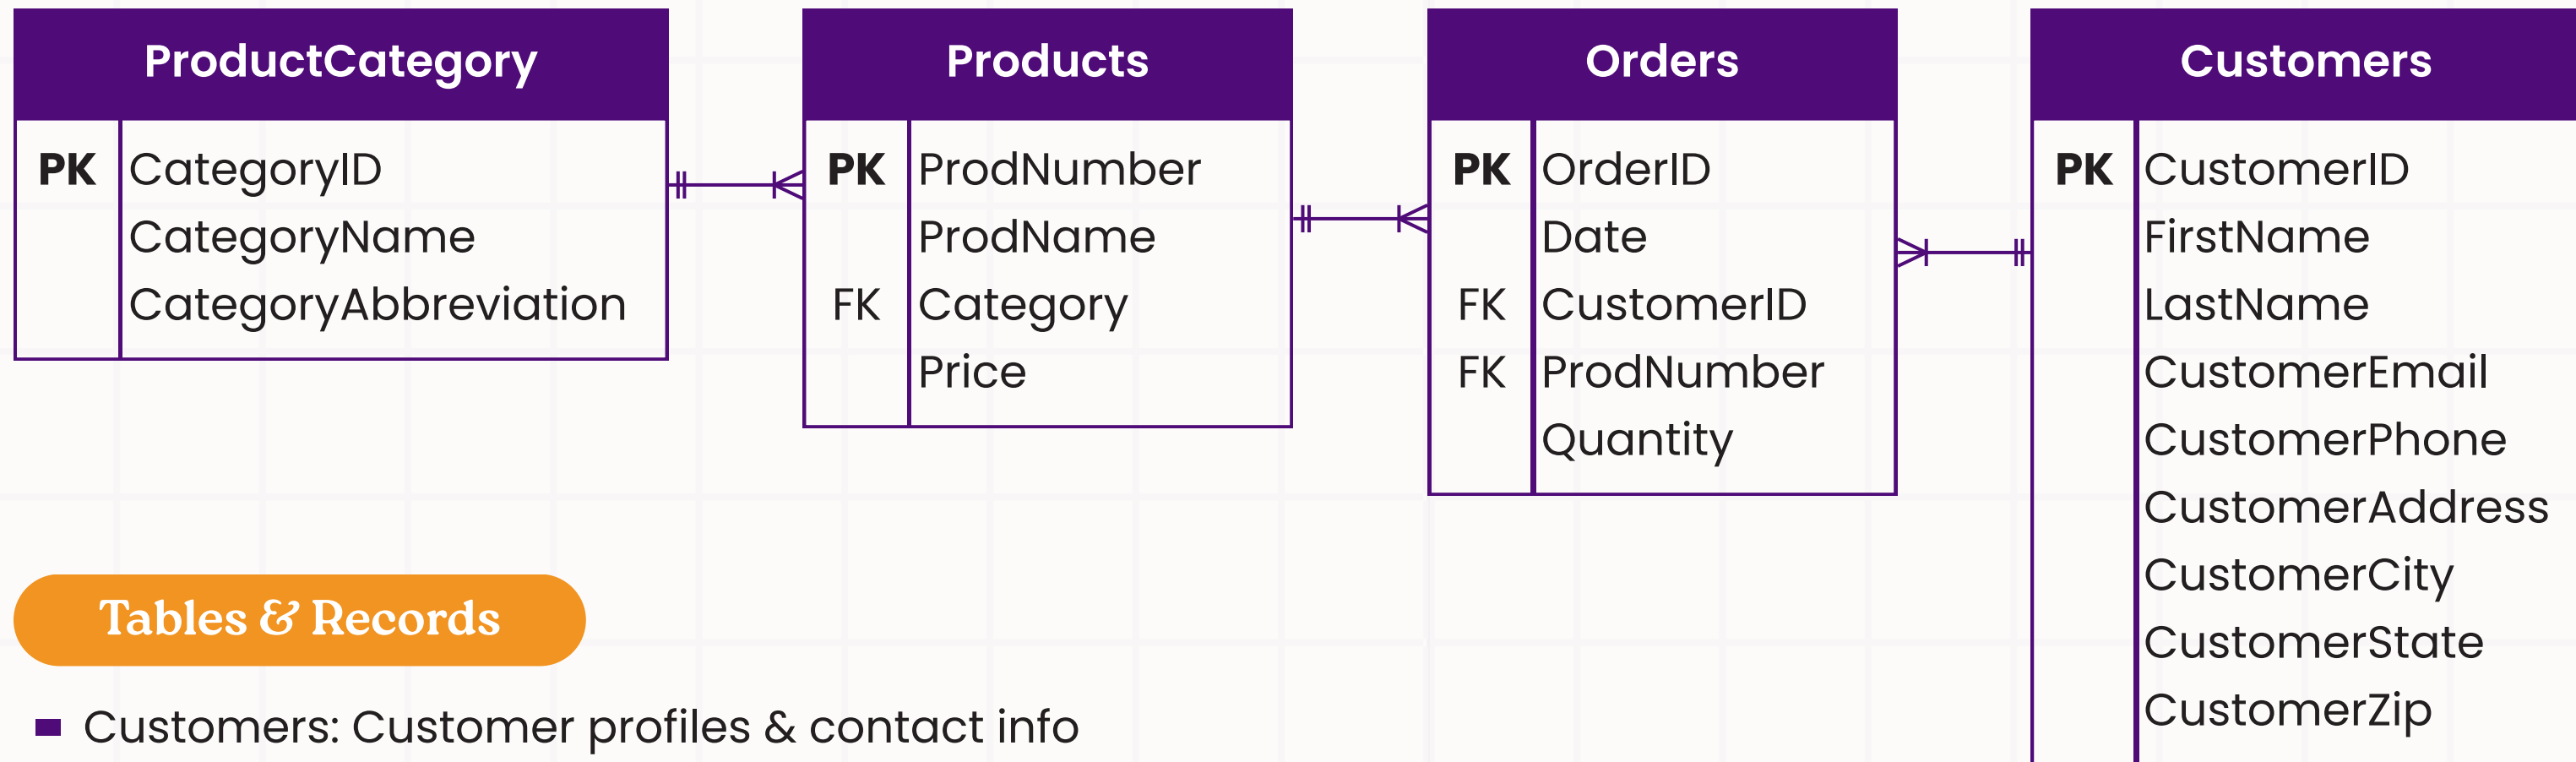

PT Sejahtera Bersama aims to gain a **deeper understanding** of **sales patterns** in order to **identify areas with potential** for **increasing revenue** and **improving efficiency**.

Objectives

- Build a **solid data foundation** for analysis
- Develop an **interactive dashboard** to monitor key sales metrics
- Provide **data-driven business recommendations** to increase sales

Data Infrastructure Overview

Tables & Records

- Customers: Customer profiles & contact info
- Orders: Transaction history (Date, Qty)
- Products: Product catalog with pricing
- ProductCategory: 3 main categories (BP, DK, DS)

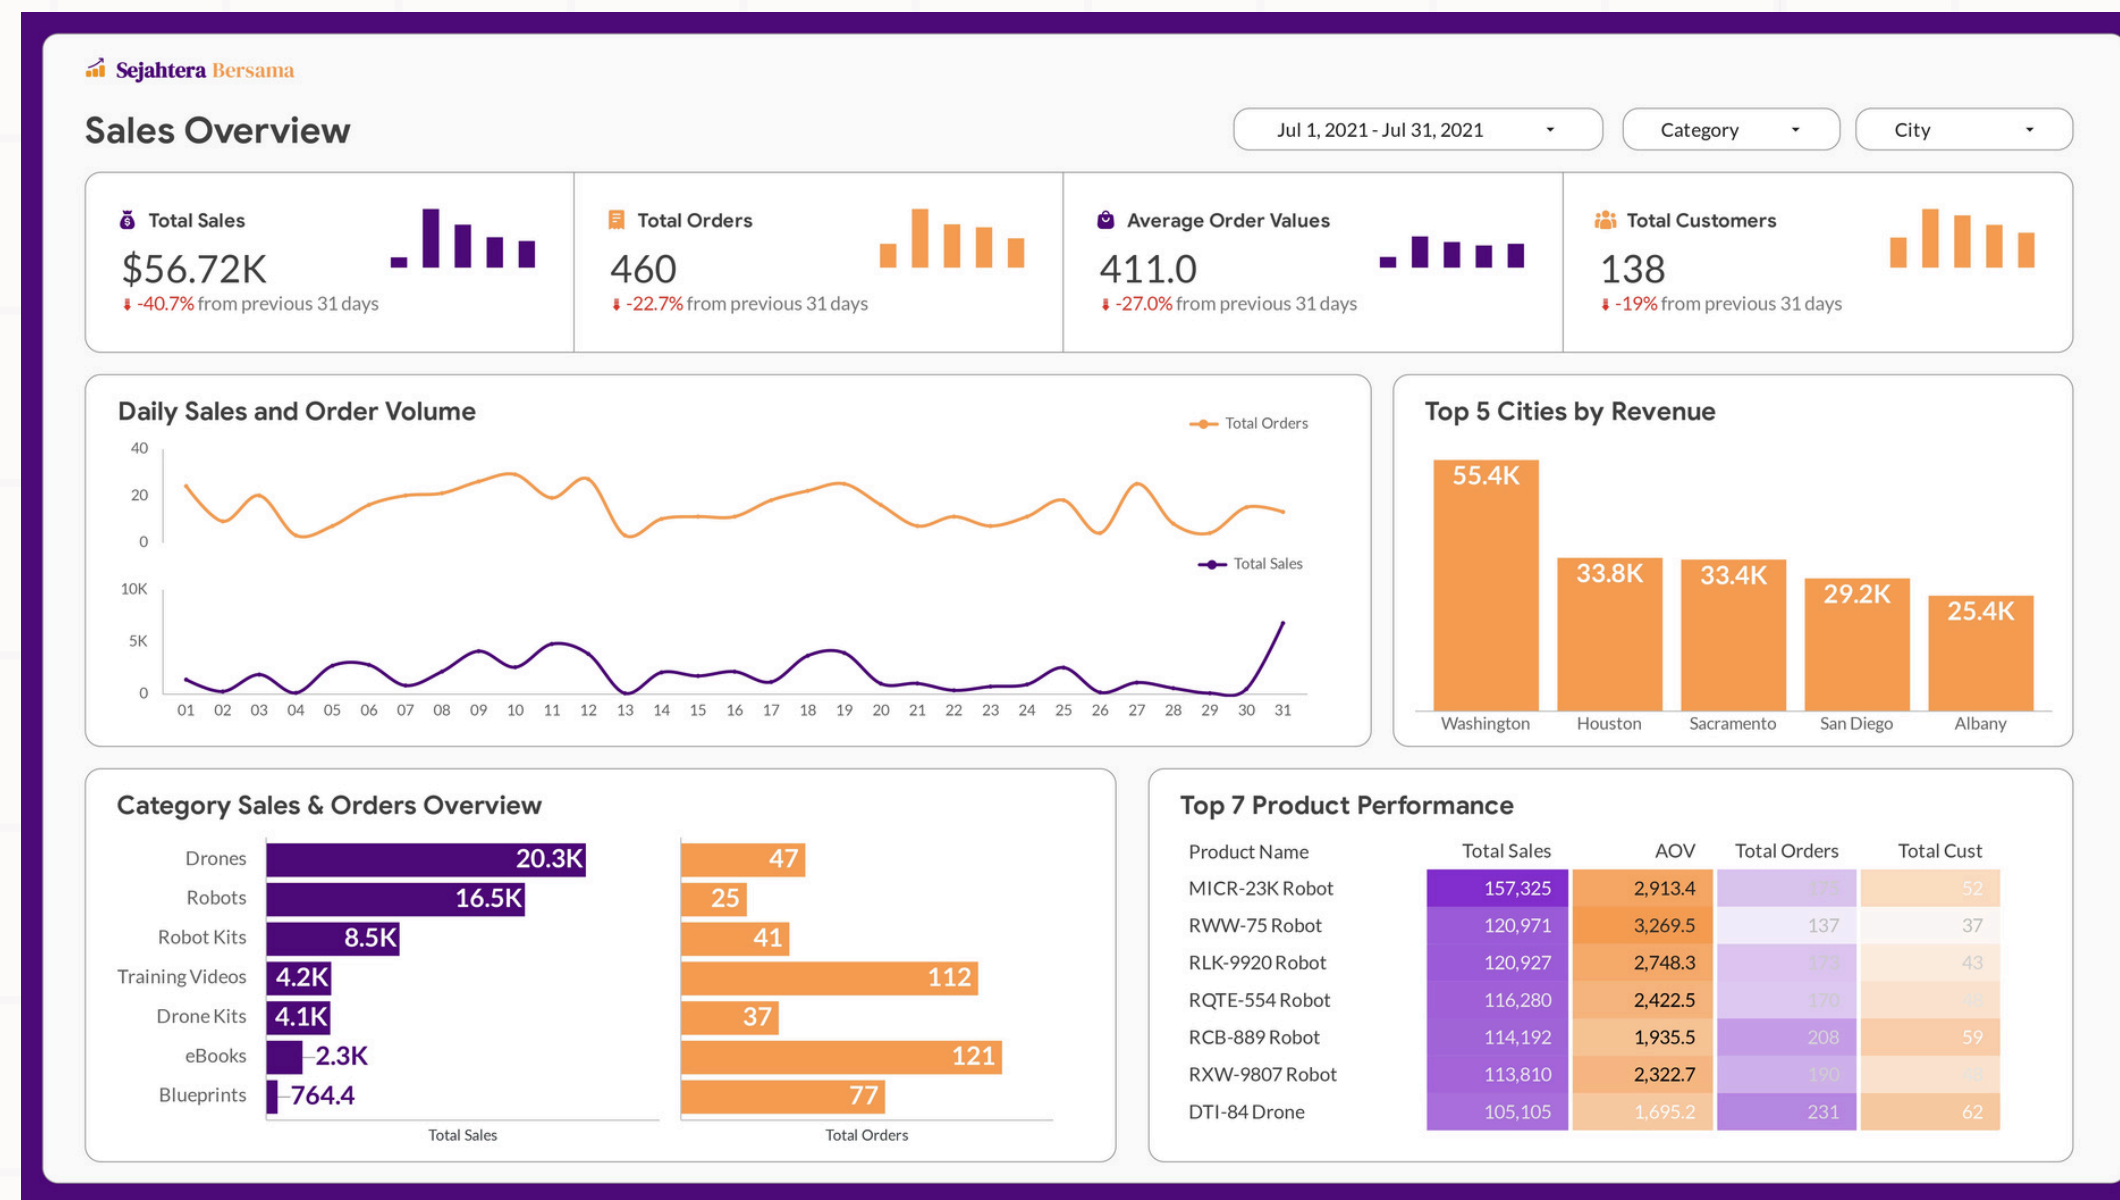

Master Table Development

To enable accurate and efficient analysis, I created a **unified master table** as the **Single Source of Truth** for **PT Sejahtera Bersama's sales data**. This was done by joining four core tables: Customers, Orders, Products, and ProductCategory.

Master Table Preview

order_date	category_name	product_name	product_price	order_qty	total_sales	cust_email	cust_city
1/1/2020	eBooks	Polar Robots	23.99	2	47.98	fvaslerqt@comsenz.com	Jackson
1/1/2020	Robots	RWW-75 Robot	883	3	2649	tmckernot@tinyurl.com	Katy
1/1/2020	Training Videos	Drone Video Techniques	37.99	6	227.94	gstiggersdd@eventbrite.com	Saint Petersburg
1/1/2020	Drone Kits	BYOD-220	69	1	69	edew@nba.com	Honolulu
1/1/2020	eBooks	SCARA Robots	19.5	5	97.5	llespercx@com.com	Des Moines

Strategic Questions Addressed

- Which products maximize profitability?
- When should we intensify campaigns?
- Where should we focus expansion?

Data Flow

- Raw Data
- Master Table
- Dashboard
- Strategic Insights

High-Value Product Strategy

Robot & Drone models (purple dots) consistently **dominate the market**, leading in both **total sales value** and **order quantity**. This shows they sell at high prices and enjoy strong customer demand.

Product Labels & Testimonials

Use “Editor’s Choice” or “Best Seller” tags, supported by expert reviews.

Inventory & Purchase Ease

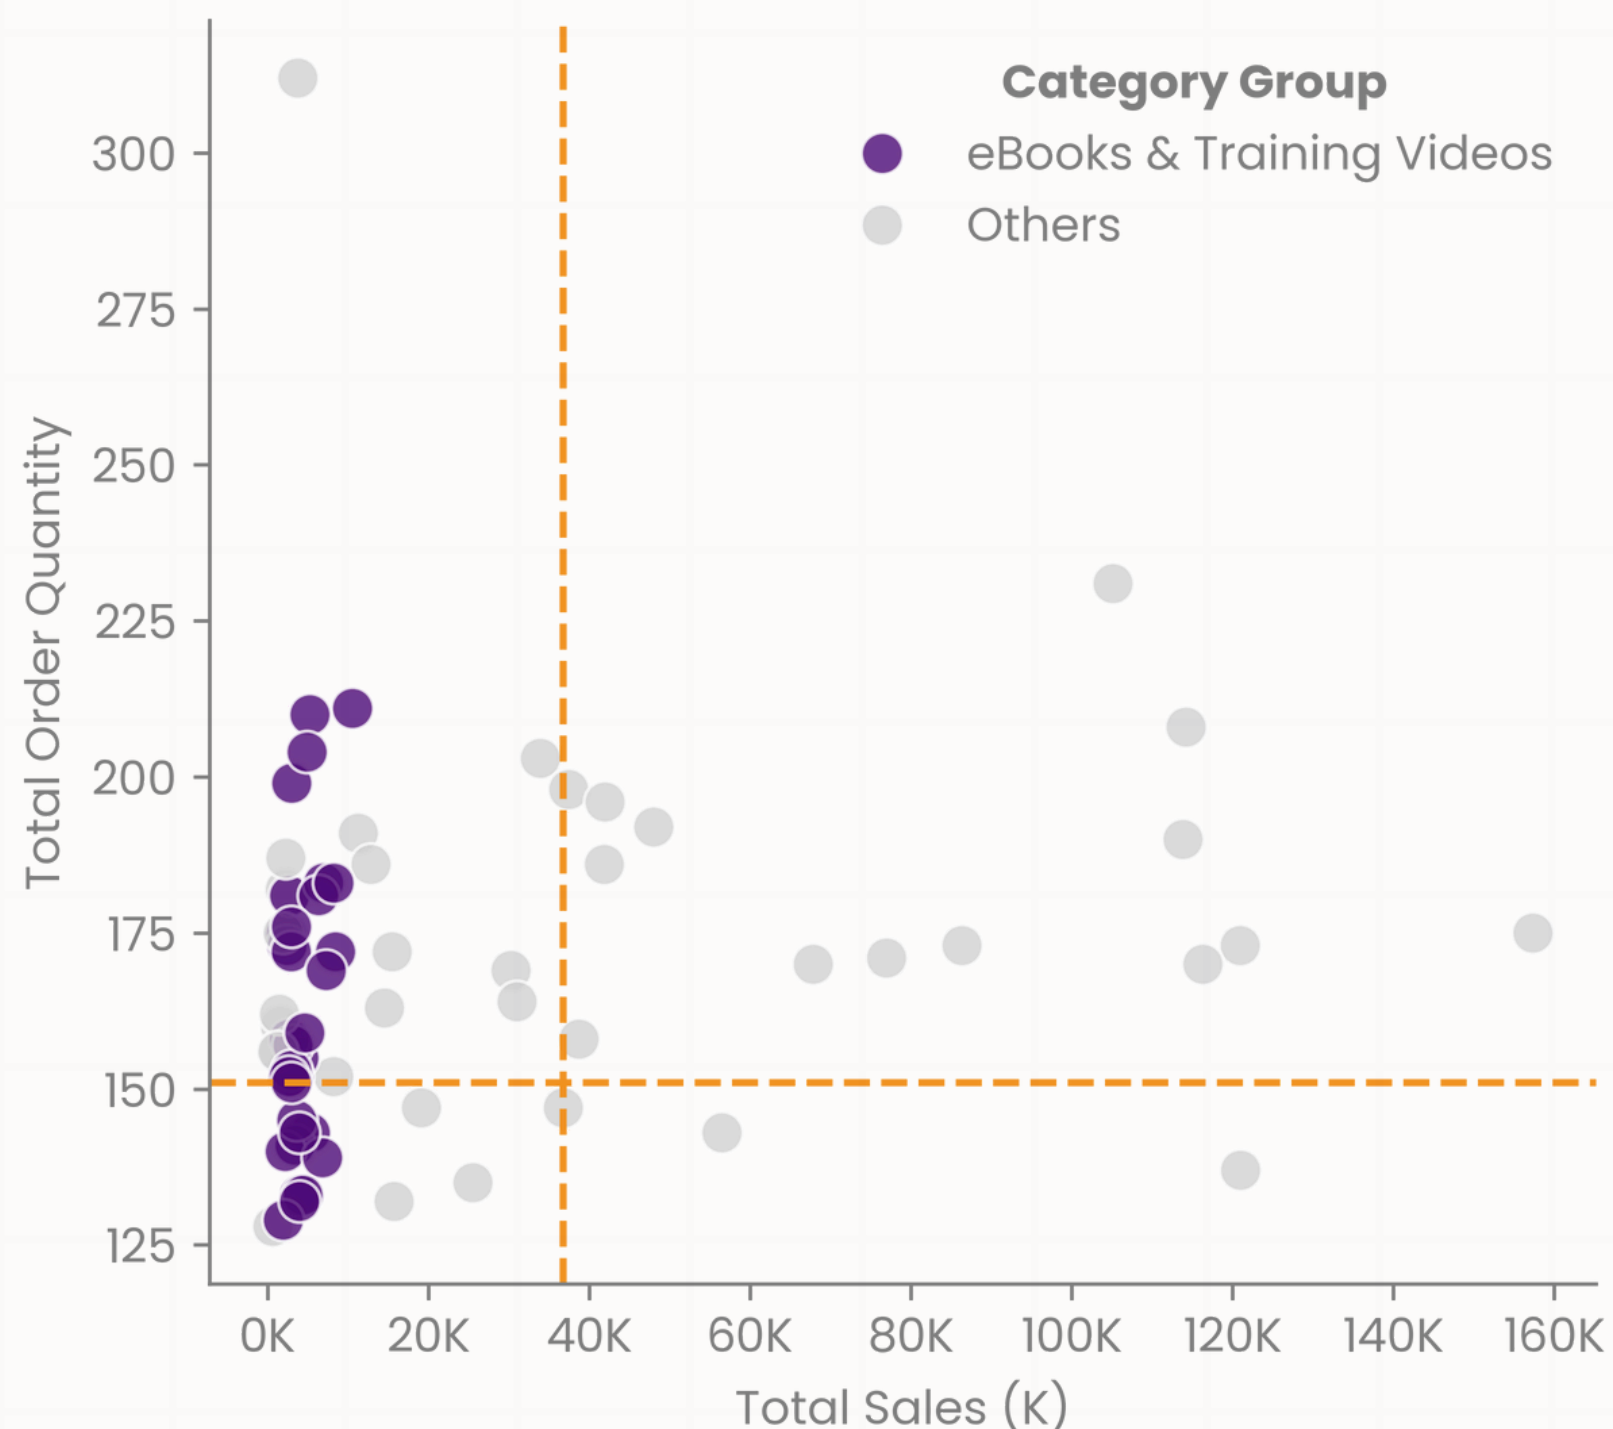

Maintain stock availability and simplify checkout with first-time buyer incentives.

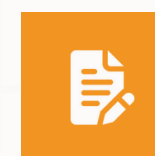

Partnership & Influencer Marketing

Sponsor robotics competitions and collaborate with key influencers to boost brand visibility.

Volume-Driven Growth Opportunities

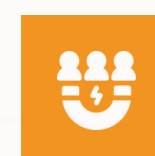

eBooks and **Training Videos** consistently record **high order volumes**, yet total sales never **exceed \$40K**. This reflects a low-value, high-volume pattern, where impact comes from transaction frequency rather than per-unit revenue.

Strategic Content Deployment

Drive organic traffic through targeted blogs, videos, and social media that funnel users to your offers.

Bundle & Upsell Optimization

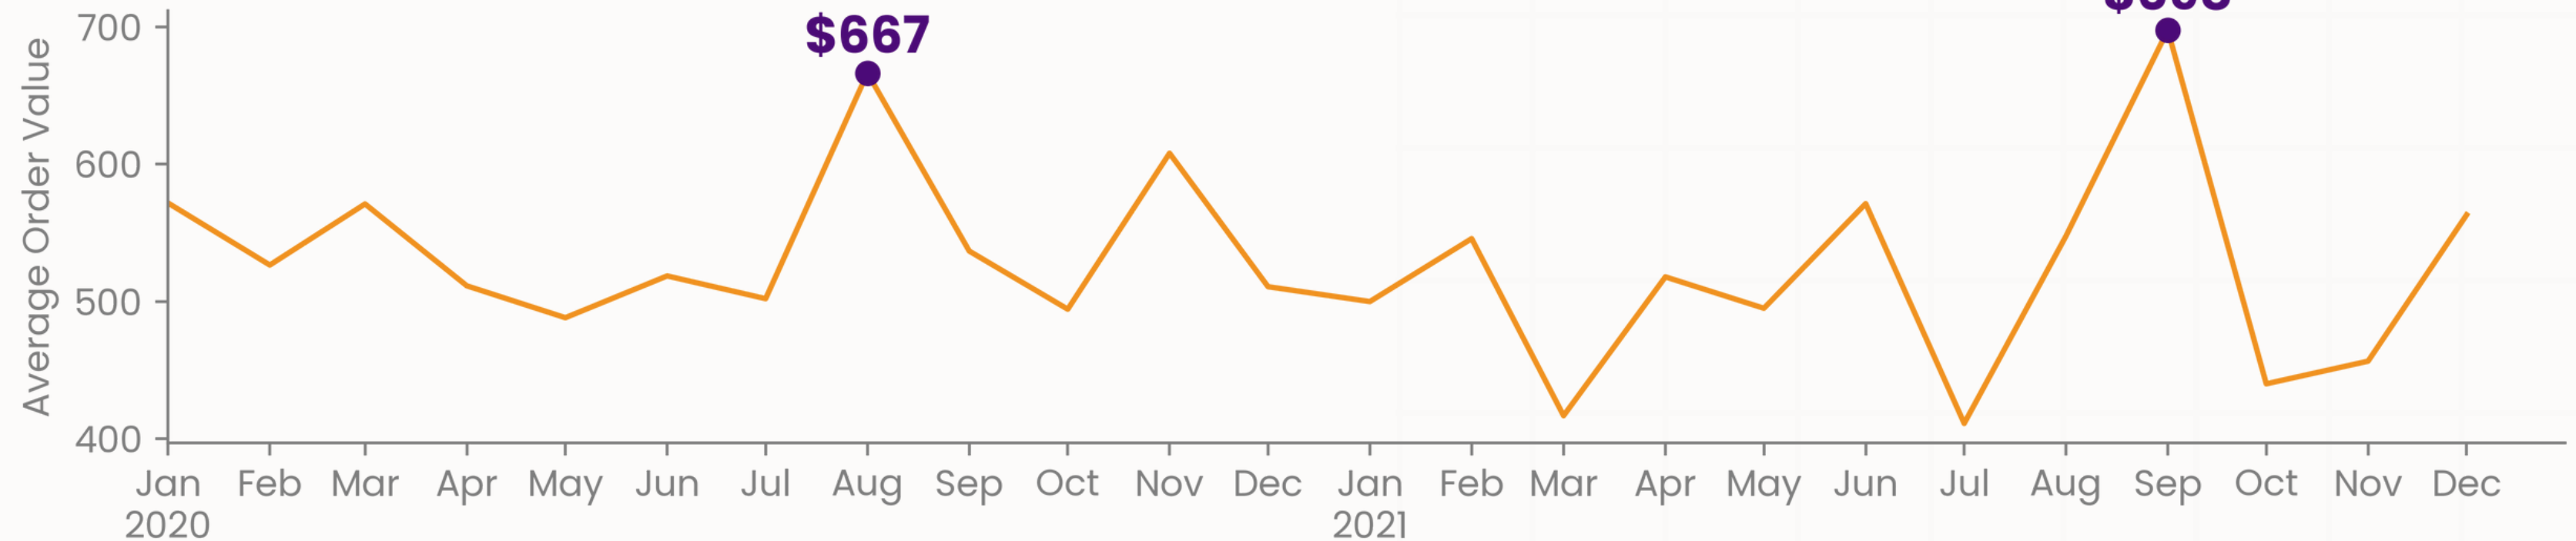

Bundle complementary products together to maximize revenue per transaction efficiently.

Trust Signals & Conversion Boosters

Add "Most Downloaded" tags, genuine testimonials, and download numbers to build trust and urgency.

Seasonal Revenue Patterns

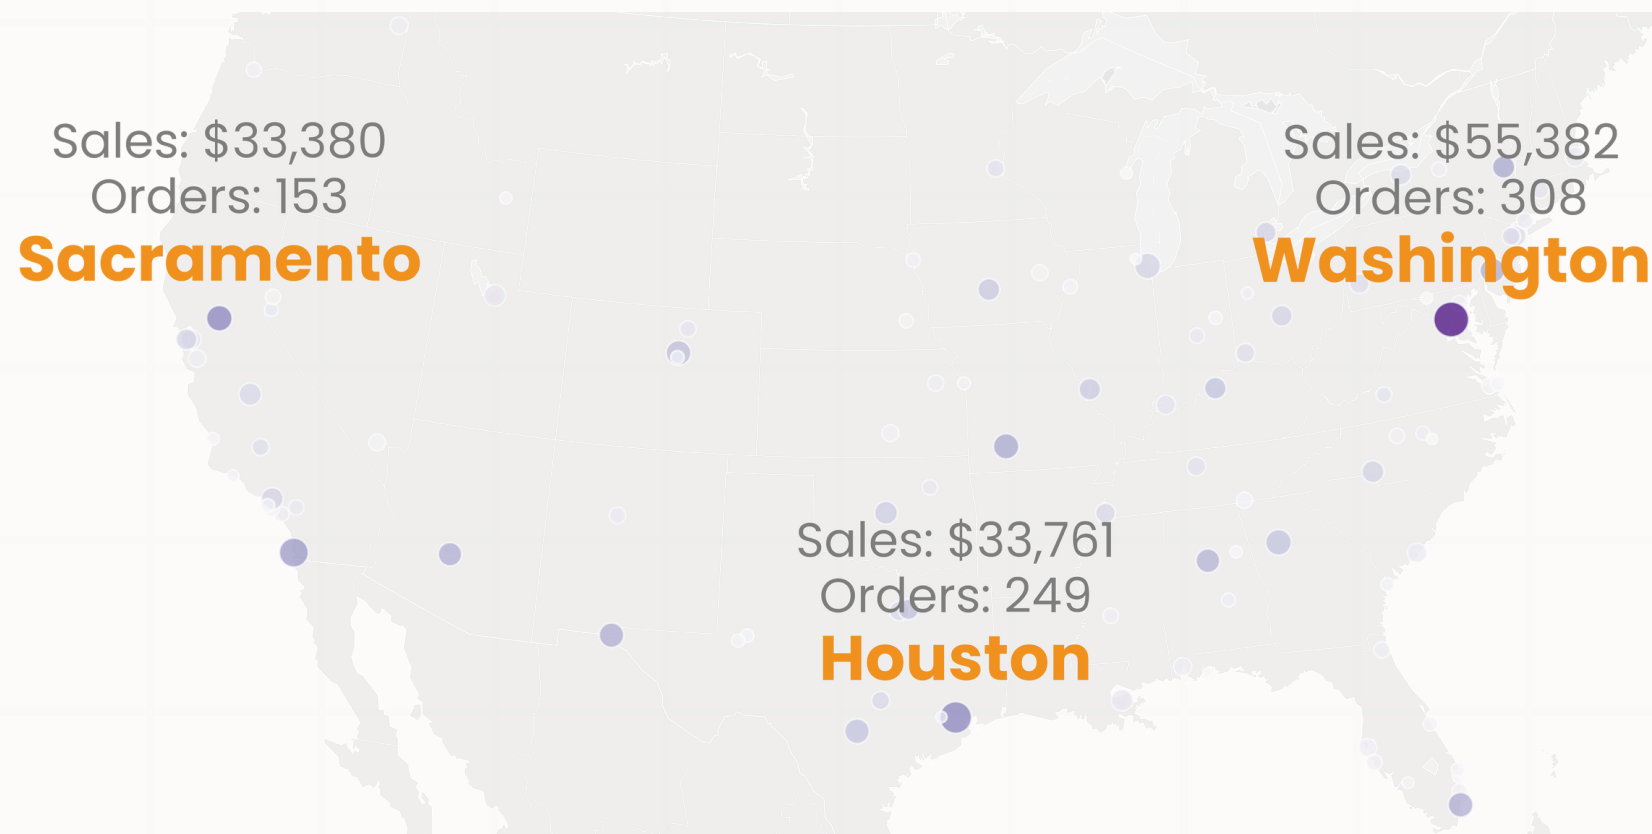

The Average Order Value (AOV) **fluctuates significantly** month to month, ranging **from ~\$400 to ~\$700**, reflecting clear seasonal patterns and customer sensitivity to timing or campaigns. The **highest peaks** consistently occur in **Q3**, with **August 2020** (\$667) and **September 2021** (\$698) marking golden moments for maximizing revenue per transaction.

Maximize Q3 Gains

Maximize Q3 with big campaigns and bundles in Aug–Sept to boost AOV. Repeat Sept 2021's winning products, segments, and channels to raise overall performance.

Regional Market Segmentation

Sales are geographically **concentrated in key metropolitan hubs**. **Washington** leads with **3.16%**, followed closely by **Houston (1.92%)** and **Sacramento (1.90%)**. This spread across distinct economic regions highlights our strong national market presence.

Sacramento: Key Accounts

Give the top 5 clients very close attention: direct contact with senior staff and fast, personal support. The goal is to keep every one of them.

Washington: VIP Customers

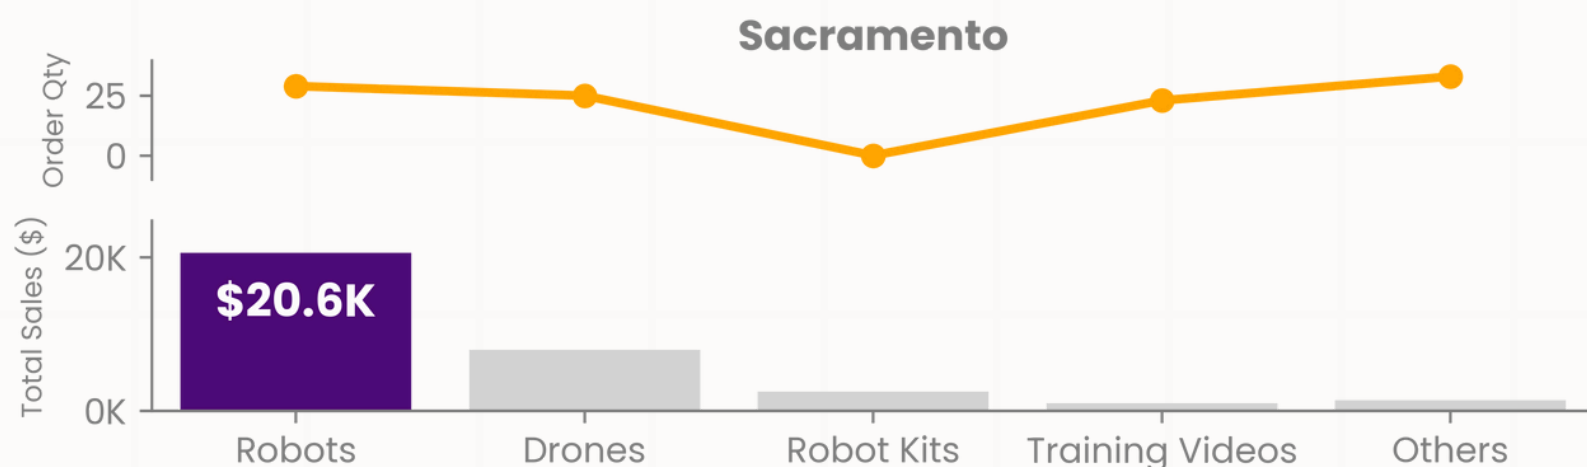

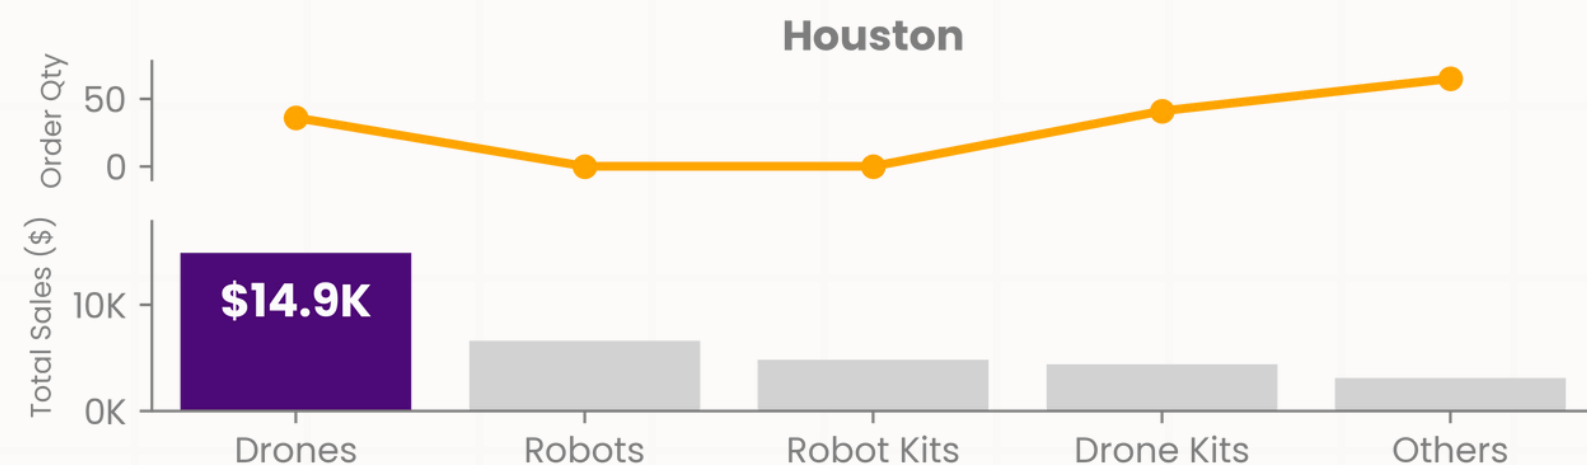

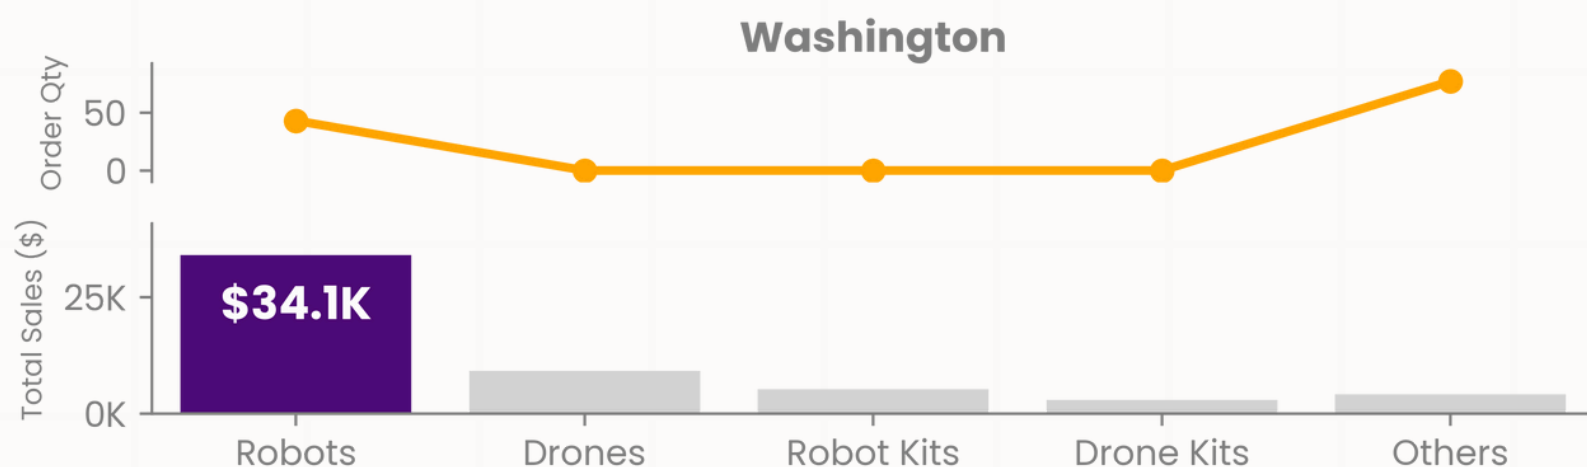

Create a loyalty program with levels, give VIPs early access to new products, and keep regular communication.

Houston: Efficiency & Scale

Optimize conversion funnels and automate customer journeys to scale the highest-volume market profitably.

Top Market Performance Breakdown

Washington leads as the **top market** with a **3.16%** share, driven by high-value **"Robots"** sales exceeding **\$34,000**. Its success is concentrated among **premium clients**, with the top 5 contributing nearly **45% of total revenue**.

Targeted Product Campaigns

Launch city-specific marketing focusing on proven winners: Robots in Washington & Sacramento, Drones in Houston.

Regional Inventory Optimization

Establish location-based stock distribution aligned with product demand patterns per city. Prioritize fast-moving items in high-volume markets to reduce delivery times and logistics costs.

Thank You
